### **RULING ON ENTITLEMENT<sup>1</sup>**

On December 29, 2020, John M. Lewis filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*<sup>2</sup> (the “Vaccine Act”). Petitioner alleges that he suffered a shoulder injury related to vaccine administration (“SIRVA”) as a result of an influenza vaccine received on or about November 5, 2019. Petition at 1. Petitioner further alleges the vaccine was administered in the United States, he suffered the effects of his condition for more than six months, and he has never received compensation in the form of an award or settlement, or filed a civil action, for his vaccine-related injuries. Petition at ¶¶ 2, 20, 23. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On June 27, 2022, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent agrees that "petitioner had no history of pain, inflammation or dysfunction in his left shoulder; his pain and reduced range of motion occurred within 48 hours of receipt of an intramuscular vaccination; his symptoms were limited to the shoulder in which the vaccine was administered; and no other condition or abnormality was identified to explain his symptoms." *Id.* at 5. Respondent further agrees that the statutory six month sequela requirement is satisfied, the case was timely filed, and the vaccine was received in the United States. *Id.* Respondent also notes that Petitioner avers that he has not filed a civil action or received compensation in the form of an award or civil settlement for an alleged vaccine-related injury. *Id.*

**In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.**

**IT IS SO ORDERED.**
